4.4 Transition Logic

5 Sidebar Specific Options

Document Setup

Common arguments for all templates:

- `title`, `subtitle`, `author`, `date`: Document information.
- `aspect-ratio`: `"16-9"` (default) or `"4-3"`.
- `show-heading-numbering`: `true` or `false`.

1 Part 1: Simple Overview

2 Part 2: Core Features

3 Part 3: Nested Structure

4 Global Configuration

- 4.1 Metadata & Layout
- **4.2 Typography**
- 4.3 Structural Mapping
- 4.4 Transition Logic

Font Settings

Presentate UI scales automatically with these options:

- `text-font`: Base font family (default: `"Lato"`).
- `text-size`: Base font size (default: `20pt`).

```
#show: template.with(
  text-font: "Roboto",
  text-size: 22pt,
)
```

1 Part 1: Simple Overview

2 Part 2: Core Features

3 Part 3: Nested Structure

4 Global Configuration

- 4.1 Metadata & Layout
- 4.2 Typography
- 4.3 Structural Mapping
- 4.4 Transition Logic

5 Sidebar Specific Options

4 Global Configuration

4.3 Structural Mapping

1 Part 1: Simple Overview

4 Global Configuration
4.1 Metadata & Layout
4.2 Typography
4.3 Structural Mapping
4.4 Transition Logic
5 Sidebar Specific Options

Level Roles

Explicitly define what each = level represents:

- `mapping: (part: 1, section: 2, subsection: 3)`
- `auto-title: true`: Automatically titles slides using the lowest mapped level.

1 Part 1: Simple Overview

2 Part 2: Core Features

3 Part 3: Nested Structure

4 Global Configuration

- 4.1 Metadata & Layout
- 4.2 Typography
- 4.3 Structural Mapping
- **4.4 Transition Logic**

5 Sidebar Specific Options

4 Global Configuration
4.1 Metadata & Layout
4.2 Typography
4.3 Structural Mapping
4.4 Transition Logic
5 Sidebar Specific Options

Transitions & Hooks

Control automatic transition slides:

- `transitions: (enabled: true, level: 2)`
- `on-part-change`: Custom hook for level 1.
- `on-section-change`: Custom hook for level 2.
- `on-subsection-change`: Custom hook for level 3.

Advanced Outline

The `outline-options` dictionary configures the underlying engine:

```
outline-options: (
  level-1-mode: "all",
  spacing: (v-between-1-1: 1.5em)
)
```
