Sommaire

1	Introduction to Physics	3
1.1	Classical Mechanics	4
1.2	Electromagnetism	9
2	Modern Physics	11
2.1	Relativity	12
2.2	Quantum Mechanics	16
3	Future Research	18

1 Introduction to Physics

1.1 Classical Mechanics

1.2 Electromagnetism

2 Modern Physics

3 Future Research

1 Introduction to Physics

1.1 Classical Mechanics

1.2 Electromagnetism

2 Modern Physics

3 Future Research

Welcome to Classical Mechanics. This is the first slide.

Newton's Laws

Newton's laws are the foundation.

- First law: Inertia
- Second law: $F=ma$

This is a titleless slide.

It was generated with `#slide(none)[...]`. Even though we are still in the Newton's Laws subsection, the header title has disappeared.

Lagrangian Mechanics

A more abstract formulation using energy.

1 Introduction to Physics

1.1 Classical Mechanics

1.2 Electromagnetism

2 Modern Physics

3 Future Research

Maxwell's equations rule here.

1 Introduction to Physics

2 Modern Physics

2.1 Relativity

2.2 Quantum Mechanics

3 Future Research

1 Introduction to Physics

2 Modern Physics

2.1 Relativity

2.2 Quantum Mechanics

3 Future Research

Things get weird near the speed of light.

Special Relativity

- Time dilation
- Length contraction
- $E = mc^2$

General Relativity

Gravity is curvature of spacetime.

1 Introduction to Physics

2 Modern Physics

2.1 Relativity

2.2 Quantum Mechanics

3 Future Research

Probabilities and wavefunctions.

1 Introduction to Physics

2 Modern Physics

3 Future Research

3 Future Research

This section has no subsections.
