*2-Level Mapping vs 3-Level Content*

Presentate Team

## 1 Introduction

### 2 1. Mapped Section (L1)

# 1 Introduction

# About Presentate

Presentate is a flexible Typst template for professional presentations.

- **Zero-Jitter:** Transitions are engineered for perfect pixel-alignment.
- **Mapping:** Explicit role assignment for heading levels.

## 1 Introduction

### 2 1. Mapped Section (L1)

# Theme Rationale

Testing what happens when content has more levels than the mapping.

## 1 Introduction

### 2 1. Mapped Section (L1)

1 Introduction

**2 1. Mapped Section (L1)**

2.1 1.1 Mapped  
Subsection (L2)

# **2 1. Mapped Section (L1)**

## **2.1 1.1 Mapped Subsection (L2)**

# Observation

Level 1 is mapped to **Section**. It creates a transition slide.

1 Introduction

## 2 1. Mapped Section (L1)

2.1 1.1 Mapped  
Subsection (L2)

1 Introduction

**2 1. Mapped Section (L1)**

**2.1 1.1 Mapped  
Subsection (L2)**

## 2 1. Mapped Section (L1)

### 2.1 1.1 Mapped Subsection (L2)

# Observation

Level 2 is mapped to **Subsection**. It appears in the navigation.

1 Introduction

2 1. Mapped Section (L1)

2.1 1.1 Mapped  
Subsection (L2)

## 2.1.1 1.1.1 Unmapped Heading (L3)

### Invisible Level 3

Level 3 is **NOT** mapped.

- It does not trigger a transition.
- It does not appear in the navigation bar.
- It is hidden from the slide body by default.
