The Split Theme

Dual-column header for structural awareness

I.a. Theme Philosophy

The **Split** theme offers a dual-column header:

- **Left side**: Displays the sections.
- **Right side**: Displays subsections of the current section.

I. Introduction

I.a. Theme Philosophy

I.b. Transitions

I.b. Transitions

Integrated transition slides provide a roadmap between sections and subsections, helping the audience stay oriented.

II. Configuration

II.a. Navigation Style

II.b. Layout

II. Configuration

II.a. Navigation Style

II.b. Layout

II.a. Navigation Style

Toggle between two modes:

- `navigation-style: "all"`: Shows all siblings (Copenhagen style).
- `navigation-style: "current"`: Shows only the active context (Cambridge style).

II. Configuration

II.a. Navigation Style

II.b. Layout

II.b. Layout

Customize the header proportions using `header-columns` (e.g., `(2fr, 1fr)`) and alignments (`section-align`, `subsection-align`).
