Relative `auto`, `none`, and `(rel: int)` Indices

This is present first

This will shift. →

This comes with current `pause`.

This is the second `pause`.

This is the third `pause`

But this come before.

Relative `auto`, `none`, and `(rel: int)` Indices

This is present first

This will shift. →

This comes with current `pause`.

This is the second `pause`.

This is the third `pause`

But this come before.

Relative `auto`, `none`, and `(rel: int)` Indices

This is present first

This came later, but **not** preserve space. *This will shift.* →

This comes with current `pause`.

This is the second `pause`.

This is the third `pause`

But this come before.

Relative `auto`, `none`, and `(rel: int)` Indices

This is present first

This will shift. →

This comes with current `pause`.

This is the second `pause`.

This is the third `pause`

But this come before.
